Dear mom \$ Sad,

d quess we wonk try to come out next week. I would have to go to california and this would leave too short a time for oregon and It washington. Patter than rush about for a week we will plan to come out this summer and maybe spend some time at the cabin.

I have been busy giving presentation lately trying to explain how I spend \$600,000 per year. The fellow last week liked my program and is arranging for me to give a presentation to admiral kidd, the record most important man in the hary.

The weather was cool over the weekend and we hunded a lot of logs. How it is quite warm and there are thunderstorms, It is like summer when the rain doesn't lower the temperature.

We hope many in feeling O.K. maybe the body will have arrived by the time we come out. The more to Howaii looks very unlikely at this time. We are thinking of moving closer too my work but hoven't had time to look for a house yet.

We plan to go up to Washington on saturday and look at the Cherry blossom. They are very pretty but don't last long. We haven't been to the library for a while and I'm anxious to look for more information on ancestors. Hext week we will transparent density as at two app rince it in Victies vacation and close to my birthday! We always have a cochtail, appetizer, very, main course with a bettle of wine, derent, coffee, and an after-dinner drink. So, it is easy to spend over two hours in the restaurant. We are signing up to see two operar at the Kennedy Center - The mihado and marriage of Figuro. Love, fin & Vickie
